

"Credit Price Applies to Debit Transactions" Decal Placement Guide

- Please post "Credit price applies to debit transactions" decals immediately after receiving them.
- Post ONE decal on each fueling dispenser. If possible, place each decal closest to the payment screen, as illustrated in the below diagram. Do not place decal over any loyalty or regulatory decals.
- If you cannot fit the decal in the preferred location, place it as close to that location as possible.

Cleaning Dispenser Surface:

Please clean the dispenser surface before applying the decal with a cleaner such as 409, Fantastik, or mild detergent/soap. Be sure to rinse the cleaner off with water and then pat the surface dry thoroughly before applying the decal.

Adhering Decal:

After cleaning and drying the dispenser surface, peel back the paper liner on the back of the decal to expose the adhesive completely. Position the decal as illustrated and apply pressure to adhere to dispenser.
